

CONTRIBUTORBASE

State and local campaign finance data is clean and standardized with ContributorBase. With over 27 years of data, ContributorBase contains current and historical campaign finance data for many state and local campaign committees.

Why ContributorBase

COMPREHENSIVE

Find small dollar donors to local and state contests, not just large dollar national donors.*

CONVENIENT

Make the data easily actionable by sorting on years, issues, and committees.

FRESH

Get monthly refreshes to ensure that your donor engagement and research are current.

What's Inside

13B+

Donations to state and local committees

200K

State and local committees across multiple states

27+

Years of donations all in one format and location

How to Use ContributorBase

- **Donor Prospecting** - find who's given before and is likely to give again, and have the dollar amounts you need to make a more confident ask.*
- **Fundraising Benchmarking** - see how comparable committees raised and spent across similar races and cycles.
- **Research** - follow the money behind competing candidates and committees.
- **Issue-Based Targeting** - committee categorization by type and issue lets researchers and consultants isolate donors aligned with specific causes.
- **Cross-Product Intelligence** - Connect ContributorBase to voter file and vote history data via shared IDs. Find donors who are also low-propensity voters and activate them on both fronts.

*Disclaimer: The use of ContributorBase, which includes or reflects data taken from reports filed with the State election authorities or Offices of the various Secretaries of State ("ContributorBase Data") may have specific use and disclosure requirements and limitations based on state laws. Clients are advised to consult with their legal counsel for data disclosure and use restrictions.
